10 GREAT  
STORAGE  
IDEAS!

## Store & Order

Everywhere you turn in this renovated 14x16-foot kitchen you see clever ways to put things away. Once a dark, cramped area that also held the laundry room, it's now an easy, breezy—and convenient—space for Gary DeWaal, Myrna Chao, and their two children.

### 1 BOTTLED UP

A tall wine rack was worked into a 6-inch sliver of vertical space and holds more than a dozen bottles.

### 2 HOLE IN ONE

A small hole for food scraps in the island countertop, directly over the trash can, has a stainless-steel lid to contain odor.

# indoors **RENOVATION**

### 3 DOWN UNDER

A comfy and well-lit L-shape banquette with storage underneath is a convenient place for Myrna, Gary, and their two teenage daughters to also do home-work or just relax.

### 4 STACKED DECK

Lightweight molded-plastic chairs stack up and out of the way.

**5 HANDY TOWELS** To the right of the sink, three cubbies hold dish towels.

### 6 HOT TOPIC

A built-in espresso/cappuccino maker is fitted into kitchen cabinetry and plumbed right into the sink.

### STORE & ORDER

**7 UP THE WALL** Utility closets, built into the opening to the dining room, hold storage.

**8 NOOKS APLENTY** Food staples and other cooking supplies fill drawers under counters, in the floor-to-ceiling units along the refrigerator, and in a super-storage center island—all in white lacquered-wood cabinetry.

**9 MEDIA OUTLET** Drawers underneath the television hold DVDs and stereo equipment. Audio equipment is wired into speakers that are discreetly recessed into the ceiling.

**10 TIMELESS TOUCH** In the dining room a compact built-in combines sideboard and china cabinet in one unit. Though new, its detailing (along with the kitchen island's) is designed to blend with the 1920s architecture.
